Subject: Muscogee SAFETEA Briefing

Good morning,

David's SAFETEA briefing for Muscogee Nation is tomorrow. In the briefing material the following issue will be noted:

The Muscogee Nation has inquired with EPA about the general permitting requirements for a planned meat processing plant, including potential Clean Air Act (CAA) and Clean Water Act (CWA) permits. On June 9, EPA Region 6 The Muscogee (Creek) Nation – Environmental Office and EPA program offices (Tribal Affairs, ARD, WD, and ORC) held a call to discuss and address technical concerns on facility construction of meat processing plant on tribal trust land south of Tulsa, Oklahoma. EPA will continue to work with the Nation to advise them of any required CAA or CWA permits that may be needed either before construction or before operations at the plant begin. The town of Winchester and local residents plan to file citizen suits under the CAA and CWA regarding this plant.

Gerardo will take the lead for the discussion.

Thank you,

Randy
